About Me

Observant and detail-oriented aspiring Backend developer with a specialization in MERN Stack, JavaScript, CSS, and HTML Seeking a platform where I can utilize my knowledge and skills efficiently and make positive differences to the organization along with professional and personal growth.

Personal Projects

Portfolio Website

Languages and Frameworks used: ***HTML | CSS | JavaScript | React.js***

My personal portfolio website made using HTML, CSS, JavaScript and ReactJS

Description

- No 3rd party CSS utilities (like Bootstrap) are used.
- Responsive website.
- Observed many other websites for design Ideas.
- Explored and Used 3rd party modules to do certain tasks inside websites like pdf.js
- This website uses simple API to fetch project details from the MongoDB database made by me using Node.js/Express.Js and Mongoose.

Expense Tracker

Languages and Frameworks used: ***HTML | CSS | Angular***

Website which allows users to add and analyze expenses graphically.

Features

- User can add/remove/edit expenses easily
- Expense will be stored inside device, and that's why data will be loaded again after refresh
- Graphical Representation of Monthly expenses for single year.
- Expenses will be sorted according to year by default.

The Pig Game

Languages and Frameworks used: ***HTML | CSS | JdvaScript | ReactJS***

A website which allows users to play The Pig Game.

Description

- 2 Users can play this game with each other.
- To win the game, any one of the players has to score 100 points.
- To learn more about The concept of Pig Game itself, go here: https://en.wikipedia.org/wiki/Pig_(dice_game)
